**Studio Jeroen van Veluw** is a Dutch design studio founded by Jeroen van Veluw. The studio designs simple and functional products and spaces. Using function as a starting point, he creates objects that serve a purpose and offer what they are supposed to. Not more and not less. This results in outspoken designs that you will simply start loving and that will last your lifetime.

On show at **Driving Dutch Design 2020**.

Re-Value. From January on, we - 22 designers - have been learning and reflecting on the value of our practice as part of Driving Dutch Design; a renowned talent development program for creative entrepreneurs.
